**AFFIDAVIT IN SUPPORT OF CRIMINAL COMPLAINT**

Your affiant, Jason Siuda, a Special Agent with the United States Homeland Security Investigations (HSI), within the Department of Homeland Security ("DHS"), being duly sworn, hereby deposes and states as follows:

**I. Agent Background and Statutory Authority**

1. I am a Special Agent with the United States Homeland Security Investigations (HSI), within the Department of Homeland Security ("DHS") since August, 2009. I am an "investigative or law enforcement officer" of the United States within the meaning

of Section 2510(7) of Title 18, United States Code, that is, an officer of the United States who is empowered by law to conduct investigations of, and to make arrests for, offenses enumerated in Title 21, United States Code, Section 801 et seq. During my law enforcement career, I have participated in investigations targeting the smuggling, trafficking, and distribution of narcotics. As part of my employment with HSI, I successfully completed the Federal Law Enforcement Training Center's Criminal Investigator Training Program and the Immigration and Customs Enforcement Basic School, both of which included intensive instruction with regard to drug enforcement, including application for, and execution of, search and arrest warrants, as well as application for criminal complaints, and other legal process. I am familiar with how controlled substances are obtained, diluted, packaged, distributed, sold, and used within the framework of drug smuggling and how drug smugglers use other persons and/or their personal property to facilitate their illegal activities.

2. I have also received training and participated in numerous investigations involving the importation and distribution of "controlled substance analogues", sometimes

referred to as "synthetic drugs". In this regard, I am aware that the Controlled Substances Act (CSA) was amended in 1986 by the enactment of the Controlled Substance Analogue Enforcement Act. This amendment addressed a growing concern that home-grown laboratories were attempting to circumvent the existing drug laws of the United States simply by tweaking the molecular structures of the controlled substances. While the chemical structures could be altered, the physical effects on the human body were notably similar to the actual controlled substances they sought to replicate.

3. The Controlled Substance Analogue Enforcement Act specifically provides that controlled substance analogues, *to the extent that they are intended for human consumption*, are to be treated as Schedule I controlled substances for the purposes of criminal prosecution. The term "controlled substance analogue" means a substance which: (1) the chemical structure of which is substantially similar to the chemical structure of a controlled substance in schedule I or II; (2) which has a stimulant, depressant, or hallucinogenic effect on the central nervous system that is substantially similar to or greater than the stimulant, depressant, or hallucinogenic effect on the central

nervous system of a controlled substance in schedule I or II; or  
(3) with respect to a particular person, which such person represents or intends to have a stimulant, depressant, or hallucinogenic effect on the central nervous system that is substantially similar to or greater than the stimulant, depressant, or hallucinogenic effect on the central nervous system of a controlled substance in schedule I or II. Title 21 United States Code 802(32)(A).<sup>1</sup>

4. I am also aware that companies located in [REDACTED] and India are principally responsible for manufacturing and exporting illicit chemical substances and analogs to the United States. Exporters of these compounds will typically mislabel the product to evade detection by customs or other law enforcement, and sell the drugs via the Internet to distributors around the world, including in the United States. Distributors in the United States then sell the drugs online, through traditional distribution methods or by retail distribution at convenience stores, gas stations, and "head shops". Analogue substances can

be highly dangerous chemicals that are ingested by recreational drug users as a substitute to other, more familiar, controlled substances such as marijuana, MDMA (ecstasy), cocaine, ketamine, PCP, and methamphetamine.

5. In October 2011, the United States Drug Enforcement Administration (DEA) exercised its emergency scheduling authority to control three synthetic drugs which were similar in chemical structure to Cathinone, a Schedule I stimulant. This list included 4-methylmethcathinone a/k/a "Mephedrone"; 3,4 methylenedioxypyrovalerone a/k/a "MDPV"; and, 3,4 methylenedioxymethylcathinone a/k/a "Methylone". These substances have been marketed under names such as "Ivory Wave", "Purple Wave", "Drone", "Vanilla Sky", "Amped", "Rave", "M-1", "Molly" or "Bliss". Except as authorized by law, the emergency action made the possession and distribution of these chemicals, or the products that contain them, illegal in the United States. See, 18 C.F.R. 1308.11(g).

6. On July 9, 2012, President Obama signed into law S. 3187, the Food and Drug Administration Safety and Innovation Act. This legislation included a section called the Synthetic Drug

Abuse Prevention Act of 2012. The Synthetic Drug Abuse Prevention Act of 2012 immediately placed 26 synthetic drugs in Schedule I of the Controlled Substances Act, including Mephedrone and MDPV. On April 13, 2013, Methylone, including its salts, isomers, and salts of isomers, was permanently placed into Schedule I of the Controlled Substances Act (CSA).

## II. Purpose of Affidavit

7. This affidavit is submitted in support of a felony Criminal Complaint. Based upon the information contained herein, I submit there is probable cause to believe that, from in or about June 2012 through August 2013, in the Western District of New York, and elsewhere, the defendants, Joshua BUERMAN, Michele HESS, Kevin WILLARD, Andrew BOSCH, Madhu ASHOK, Lance MINNIELY, Jesse James MCAVANEY, and Rita Levy PANZICA did knowingly, willfully and unlawfully combine, conspire and agree together and with others, to commit the following offenses, to wit, (1) to possess with intent to distribute, and to distribute, a detectable amount of Methylone a/k/a "Molly", a Schedule I controlled substance, and a mixture and substance containing 4-Methyl-n-ethylcathinone, a/k/a "4-MEC", an analogue of

Methcathinone, a Schedule I controlled substance, if intended for human consumption, all in violation of Title 21, United States Code, Sections 841(a)(1), 841(b)(1)(C) and 846; and, (2) to import into the United States from a place outside thereof, that is, [REDACTED], a detectable amount of Methylone a/k/a "Molly", a Schedule I controlled substance, and a mixture and substance containing 4-Methyl-n-ethylcathinone, a/k/a "4-MEC", an analogue of Methcathinone, a Schedule I controlled substance, if intended for human consumption, all in violation of Title 21, United States Code, Sections 952(a), 960(a)(1) and 960(b)(3).

8. This case is being investigated by agents with the Department of Homeland Security, Immigration and Customs Enforcement, Homeland Security Investigations (HSI), Buffalo Office and the Drug Enforcement Administration, New York Division, Rochester Resident Office. I have personally participated in the investigation of the offenses referred to above, and make this affidavit based on my personal participation in this investigation, and based on reports made to me by other agents and officers and other law enforcement authorities. Since this affidavit is being submitted for the limited purpose of securing a felony complaint, I have not included details of every

aspect of this investigation to date.

### III. General Overview of the Investigation

9. On or about July 12, 2013, the Honorable Frank P. Geraci, Jr., United States District Judge, Western District of New York, issued an order pursuant to Section 2518 of Title 18, United States Code, authorizing the 30 day interception of electronic communications occurring over the electronic mail facility assigned to the address [REDACTED] (hereafter, "Target Account") an electronic mail (email) account that was created on or about June 2, 2007, under the Registered Account Holder name of [REDACTED]. The Account Holder is believed to be living [REDACTED]. Those contacting this email address generally refer to the user as [REDACTED]. Electronic communications were intercepted between approximately 20:37 (GMT) on July 23<sup>rd</sup>, 2013 through August 22, 2013.

10. An examination of the intercepted email communications confirms that the [REDACTED] user of the Target Account remains responsible for the wholesale distribution of numerous controlled substances and controlled substances analogs. Through the use of

email communications and website advertisement, this [REDACTED] supplier offers a host of illicit chemicals and processes orders placed by customers worldwide.

11. The process for purchasing these illicit chemicals from [REDACTED] is rather straightforward. In most cases, a customer will first inquire as to the availability and price of a particular listed chemical. After agreeing on a price and quantity, the parties further agree on a payment method, which includes [REDACTED]

The customer will provide the supplier with a name and address where the chemicals are to be sent. Once the payment is forwarded by the customer, the supplier ships the requested chemicals and provides the customer with a tracking number (TN) to monitor the mail parcel. Typically, the shipping "manifests" which describe the contents of the parcels are falsified so as to evade detection by customs or other law enforcement.

---

[REDACTED]

12. During the course of the email interception period, the [REDACTED]-based supplier shipped an assortment of controlled substances and controlled substance analogs to numerous customers located throughout the United States and abroad, including, but not limited to Austria, Canada, Finland, Spain, Germany, Italy, Belgium, Ireland, the United Kingdom, Sweden and Lithuania.

13. The bulk of orders placed by customers during the 30 day period were for Methylone. Methylone is a stimulant of the phenethylamine, amphetamine and cathinone classes. It's chemical structure closely resembles 3,4-methylenedioxymethamphetamine, known commonly as "MDMA" or "ecstasy." Its crystalline form is often sold on the streets by the street term "Molly". As stated above, Methylone was the subject of an October 2011 Emergency Scheduling and was permanently placed into Schedule I of the Controlled Substances Act (CSA) in April 2013.

14. In addition to Methylone, many customers placed orders for a controlled substance analogue called 4-Methyl-n-ethylcathinone, commonly referred to as "4-MEC". "4-MEC" is an analogue of Methcathinone, a Schedule I controlled substance if intended for human consumption. Several others placed orders for

varying types of synthetic cannabanoids.

15. Although the interception of emails coming to and from the Target Account were first reviewed in the Western District of New York, local agents were responsible for disseminating all investigative leads to the appropriate law enforcement agencies in each affected jurisdiction. In other words, because the Target Account routinely provided Tracking Numbers for shipped parcels, Customs and USPS officials were, in many cases, able to identify a particular mail parcel that was entering the United States, thereby giving law enforcement an better opportunity to interdict the package. In this regard, more than 450 leads were disseminated, resulting in the nationwide seizure of more than 70 kilograms of Methylone and numerous controlled substance analogs which had been shipped from [REDACTED]. Investigative leads also resulted in at least 54 arrests nationwide, including Maine, Massachusetts, Connecticut, New Jersey, Maryland, Virginia, North Carolina, South Carolina, Georgia, Florida, Louisiana, Tennessee, Missouri, Ohio, Michigan, Minnesota, Nevada, Oregon, California and Texas. Agents also seized several kilograms of cocaine, methamphetamine and MDMA, more than \$50,000 in cash, several motor vehicles and seven weapons, including several firearms.

**IV. The Investigation as it Specifically Relates to Joshua Buerman and His Associates**

**A. Overview**

16. Based upon my review of the overall evidence adduced to date, Joshua BUERMAN has been involved in the importation of controlled substance and controlled substance analogs from [REDACTED], including from the individual operating the Target Account, for several years. In fact, by May of 2012, Joshua BUERMAN was already under the scrutiny of federal agents in the state of Michigan. There he operated a business with Brad VANNATER called "Fantasies Unlimited." "Fantasies Unlimited" purported to be an adult novelty store, but was in reality little more than a "front" for the more profitable business of importing and distributing illegal controlled substances and controlled substance analogs, some of which was obtained from the individual operating the Target Account in [REDACTED].

17. By mid-2012, for reasons that are not entirely clear, Joshua BUERMAN and Brad VANNATER decided to end their business venture at "Fantasies Unlimited." BUERMAN, a Williamson, New York native, thereafter returned to the Rochester, New York area,

moving into a residence on Averill Avenue with some friends. His return to Rochester, however, did little to curtail his involvement in the importation of controlled substances and controlled substance analogs. As set forth in more detail below, BUERMAN continued to contact the Target Account using several different email accounts, placing scores of on-line orders throughout 2012 and 2013, and enlisting the assistance of numerous associates within the Western District of New York.

**B. Detailed Information from Sault Ste Marie, Michigan**

18. During the course of this investigation I spoke directly with HSI Special Agent John Arthur Alpers of the Sault Ste Marie, Michigan office regarding his investigation of Joshua BUERMAN and Brad VANNATER, as well as their company, "Fantasies Unlimited."

19. SA Alpers informed me that his investigation began in May 2012 when he received information from a website host provider named HostGator.com of Houston, Texas. According to HostGator.com, they received a citizen's complaint regarding a website they were hosting identified as "fantasiesworldwide.com".

According to the citizen complaint, "fantasiesworldwide.com" was marketing the sale of chemicals that are allegedly being used for human consumption. Information supplied by Hostgator.com indicated that the "fantasiesworldwide.com" website was created in January 2012 and the original billing information for the Domain Name "fantasiesworldwide.com" was: Josh BUERMAN, 3423 Cass Road, Traverse City, Michigan 49684. The User Name for the account was identified as "Fantasy". According to HostGator.com, the email address of "fantasiesworldwide@hushmail.com" was also directly linked to the website "fantasiesworldwide.com" - the User Name "Fantasy" at "fantasiesworldwide.com" had configured the account to send emails from the address of "fantasiesworldwide@ hushmail.com".

20. SA Alpers further ascertained that 3423 Cass Road, Traverse City, Michigan is the physical business location for a business called "FANTASIES UNLIMITED". Through a public record database, SA Alpers was able to confirm that "FANTASIES UNLIMITED" was owned by Brad Jason VANNATTER. SA Alpers also determined that VANNATTER and BUERMAN possessed Michigan Driver's Licenses (D/L), both reflecting the address of 3423 Cass Road, Traverse City, Michigan.

21. Utilizing an HSI undercover computer, SA Alpers entered the "fantasiesworldwide.com" website and viewed the content of the "fantasiesworldwide.com" webpage. On the "fantasiesworldwide.com" webpage, listed under the main headings, "Products" and "Hot items", several chemicals were listed for sale, to include, but not limited to 2-FMA, 4-MEC, 4-FA, A-PVP and MXE.<sup>3</sup>

22. On June 11, 2012, HSI SA Matthew Singer, acting in an undercover capacity, entered the business at 3423 Cass Road, Traverse City, Michigan and spoke to the store clerk who identified herself as "[REDACTED]". During the conversation, SA Singer inquired about the sale of "bath salts". [REDACTED] said the high from "bath salts" is at a different level (more potent or worse) and is not like smoking incense (i.e. spice). According to SA Singer, [REDACTED] then hesitantly referred SA Singer to the website "FANTASIESWORLDWIDE.COM." [REDACTED] said that "this is the

If intended for human consumption, 2-FMA is an analogue of methamphetamine (Schedule II); 4-FA is an analogue of amphetamine (Schedule III); MXE is an analogue of PCE (N-Ethyl-1-phenylcyclohexylamine), a Schedule I controlled substance; 4-Methylethcathinone (4-MEC), an analogue of methcathinone; A-PVP or alpha-PVP is an analogue of MDPV (3,4-Methylene dioxypyrovalerone), a Schedule I controlled substance.

owner's" website. [REDACTED] wrote the website on the back of a business card and handed it to SA Singer. [REDACTED] explained that FANTASIESWORLDWIDE.COM is where the chemicals can be purchased to "make your own stuff".

23. SA Alpers subsequently provided VANNATTER and BUERMAN's names and identifying data to Customs and Border Protection Officer (CBP) Officer Justin Witt, CBP Analytical Targeting Unit (ATU), Sault Steet, Marie, Michigan. Officer Witt discovered that on or about February 7, 2012, a package arrived at the CBP Port of Entry (POE), Anchorage, Alaska, from SHANGHAI YIDAI COSMETIC CO., LTD, Shanghai, [REDACTED]. The package was addressed to Brad VANNATTER, 3423 Cass Road, Traverse City, Michigan. The package was manifested as containing "matt hardener" and had a listed weight of one (1) kilogram. The package cleared CBP and was not seized.

24. CBP Officer Witt also informed SA Alpers of a suspicious package that was seized by CBP the day prior, that is, February 6, 2012. In that case, another package manifested as "matt hardener" was shipped from the same [REDACTED] company, SHANGHAI YIDAI COSMETIC CO., LTD. through the POE, Anchorage,

Alaska. This particular package was being shipped to Robin GATTIS, Wasilla, Alaska. Unlike the package sent to VANNATTER, the package shipped to GATTIS was actually seized and searched by CBP, pursuant to their border search authority. According to HSI Special Agent Ty Bishop (Anchorage, Alaska) the "matt hardener" tested positive for Methylone.

25. SA Alpers also received a list of Western Union transactions associated with Brad VANNATTER and Joshua BUERMAN. Review of certain transactions indicated that on February 2, 2012, just five days before the "matt hardener" entered the Anchorage, Alaska POE, Brad VANNATTER wired \$4,000 to an individual in Shanghai, [REDACTED].<sup>4</sup>

26. In July 2012, HSI SA Alpers learned that HSI SA Brian Lewis of Norfolk, Virginia (EDVA) was also investigating a [REDACTED] source of supply of illicit chemicals using the email address [REDACTED] (Target Account). SA Alpers was

---

<sup>4</sup> Additional research conducted by CBP Officer Witt revealed that on March 29, 2012, CBP, POE Cincinnati, Ohio seized 504 grams of Methylone that was sent from the SHANGHAI YIDAI COSMETIC CO to a recipient unrelated to the investigation into Fantasy Worldwide. The shipment was also manifested as "matt hardener".

advised that on March 14, 2012, a federal search warrant was issued for the Target Account in the Eastern District of Virginia by United States Magistrate Judge F. Bradford Stillman.<sup>5</sup> That warrant resulted in the production of several thousand email communications going to and from the Target Account, all of which clearly demonstrated that the individual utilizing the Target email address was actively distributing controlled substances and analogue substances throughout the United States. HSI SA Brian Lewis agreed to provide SA Alpers with any emails which indicated that Fantasies Worldwide, Fantasies Unlimited, Joshua D. BUERMAN and/or Brad VANNATTER were making contact with the Target Account. There were many. The following emails provide specific examples of communications between "Fantasies Unlimited" and the Target Account.

27. On March 15, 2012, fantasiesworldwide@hushmail.com communicated with the Target Account. In this series of emails, Josh BUERMAN places orders for methylone, sometimes referred to as "M-1". He indicates that he has paid via Western Union, providing a "MTCN" (money transfer control number). The Target

30. Western Union records revealed that on March 25, 2012, a Joshua ROWLAND (phone number (888) 885-9940; New York D/L #396489477; address: 3423 Cass Road, Traverse City, Michigan) did

31. On March 30, 2013, the Target Account replied to "fantasiesworldwide@hushmail.com", providing the Tracking Numbers for the shipped parcels to Eric Andrews in Denver, Colorado. A separate email that day provided another Tracking Number for a separate shipment of "4-MEC".

March 30, 2012 [REDACTED]

Hi your last TN of Brad Vannatter (1kg 4MEC) is EMS EE725265816CN.

32. On April 19, 2012, the user at "fantasiesworldwide@hushmail.com" contacted the Target Account to advise that one of the shipments to Eric Andrews had been seized, and that he wanted a re-ship of half of the order (which appeared to be the customary business practice):

April 19, 2012 fantasiesworldwide@hushmail.com

April 19, 2012 [REDACTED]

Hi, half re-ship is 1kg, that package he didn't got is 2kg...

33. SA Alpers was able to confirm that mail parcel #EE725266140CN, addressed to Eric Andrews, 1312 17th Street, Apartment #117, Denver, Colorado was in fact seized on April 12, 2012, by CBP officers co-located at the San Francisco, California International Mail Facility. A search of the parcel resulted in the discovery of 2,047 grams of a white powdery substance which, upon analysis by CBP, tested positive for Methylone.

34. Undaunted by the seizure, the [REDACTED] supplier was directed to re-ship the one kilogram of methylone to a different address.

April 20, 2012 fantasiesworldwide@hushmail.com

April 21, 2012 fantasiesworldwide@ hushmail.com

Do most of your methylone orders get through fine to USA. I had a child, I don't want any trouble. I don't have to sign right?

35. SA Alpers also followed up on the re-shipment of one kilogram of methylone crystal which was shipped to "JDB, 1773 N US Highway 31 N Traverse City Michigan." SA Alpers speculated that "JDB" were the initials for Joshua D. Buerman. SA Alpers further determined that the building located at "1773 N US Highway 31 N Traverse City Michigan" is the Grand Sugar Beach Resort Hotel.

36. During the course of his investigation, SA Alpers interviewed Ms. Jamie Julian, a manager at the Sugar Beach Resort Beach Hotel. During the interview, he showed Ms. Julian a photograph of BUERMAN. Ms. Julian indicated that she recognized BUERMAN as an individual who had stayed at the Sugar Beach Hotel in April 2012. Ms. Julian recalled that BUERMAN had in fact received a parcel at the Sugar Beach Resort Hotel from [REDACTED]. Ms. Julian further believed that she had signed for the EMS parcel.<sup>6</sup>

37. Ms. Julian further advised SA Alpers that the hotel room in which BUERMAN stayed was paid for by a different individual. Mr. Justin Mortier, General Manager, Grand Sugar Beach Hotel provided SA Alpers with copies of hotel statements related to Room 205-B, the room in which BUERMAN had resided on April 24, 2012 (i.e., the day in which EMS Parcel #EE725405500CN arrived). Hotel records reflect that a Brad VANNATTER, home address: 3423 Cass Road, Traverse City, Michigan, had paid Room 205-B beginning on April 20 through April 27, 2012. VANNATTER's hotel statements, under the section entitled, "Reservation

**C. Buerman Moves Back to Rochester, New York but Continues to Order Controlled Substances from the Target Account**

38. In or about June 2012, BUERMAN and VANNATTER apparently dissolved their business relationship in Michigan. At about the same time, BUERMAN moved back to the Rochester, New York area. However, BUERMAN continued to place orders with the Target Account. Several individuals, to include Michele HESS, Kevin WILLARD, Andrew BOSCH, Brandon EDWARDS, Madhu ASHOK, Lance MINNIELY, Jesse James MCAVANEY and Rita Levy PANZICA joined in the effort, each knowingly participating in the conspiracy by engaging in certain overt acts, including the sending of thousands of dollars to the [REDACTED] source of supply and/or receiving shipments of illicit chemicals on behalf of the organization.

<sup>9</sup> Brandon Edwards is a known acquaintance of Josh BUERMAN. Eventually, BUERMAN will introduce Edwards to the Target Account so that he can place orders directly.

47. Four days later, on July 2, 2013 the Target Account provided "jbconsultingservicesinc@gmail.com" with the tracking number EE604234550CN for the package containing 1 kilogram of "4-MEC". According to information received from the USPS, this parcel was successfully delivered to 537 Averill Avenue, Rochester, New York on July 6, 2012. The parcel was signed for by "J Angelico" in Rochester, New York.

48. During this investigation, your affiant has spoken with

a confidential source who has provided detailed information regarding Joshua BUERMAN's drug related activities. While he/she is currently facing his state charges for possession of analog substances, and hoping to receive some leniency in exchange for cooperation, his/her information has been extremely accurate. This source told me, among many things, that from roughly June through October 2012, BUERMAN was living at 537 Averill Avenue with Tomas Martinez, after returning from the state of Michigan. The source stated that he/she personally observed BUERMAN in possession of large quantities of methylene, 4-MEC and other narcotics, along with large sums of cash, inside the residence at 537 Averill Avenue, and that BUERMAN was selling these items for human consumption. The source further indicated that BUERMAN was dating Michele HESS. The source stated that BUERMAN lived at 537 Averill Avenue until he moved onto Meigs Street with Michele HESS in October 2012.

BUERMAN requested that the Target Account waive the signature requirement on the package if possible. As payment for the order, Andrew BOSCH sent \$3,100.00 to "Weiyang Ma" in [REDACTED] via Western Union and under MTCN 1089717373.

Information obtained from the USPS reveals that these two packages were in fact delivered to the Budget Inn Hotel in Fairport, New York on March 11, 2013.

108. On March 9, 2013 the Target Account provided "member36331@countermail.com" with the tracking information (EE730675867CN) for the additional package destined for the Budget Inn Hotel in Fairport, New York. According to the email message, this package purportedly contained three (3) kilograms of big crystal methylene.

109. On March 12, 2013 Customs and Border Protection (CBP) Officers stationed at the JFK International Mail Facility in New York, New York interdicted the mail parcel bearing tracking number EE730675867CN, destined to "A Bosch, 7340 Pittsford Palmyra Road, Fairport, New York 14450." A border search of the mail parcel revealed a white crystal substance secreted within a plastic bag and foil. A subsequent laboratory report completed by

the Northeast Regional Laboratory (NERL) determined that the substance was 3,4-Methylenedioxymethcathinone Hydrochloride, also known as methylone. The net weight of the substance was 3.0 kilograms.

**V. Title III Interception of Target Account Shows Similar Patterns As Those Revealed Through the EDVA Search Warrant; Seizure of Three Mail Parcels Containing Methyllone**

123. On or about July 23, 2013, investigators began "live" monitoring of the electronic communications of the Target Account pursuant to an Order of interception authorized by the Hon. Frank P. Geraci, United States District Court, Western District of New York.

124. On July 31, 2013 a series of pertinent emails were intercepted between the Target Account and "member36331@cmail.nu" (note: "countermail.com" and "cmail.nu" email accounts resolve to the same email address). An order was placed with the Target Account for 3.4 kilograms of methyllone. The emails indicated that 800 grams of methyllone was to be sent to the names "M. Hess" and "Jesse M." at the "Super 8 Motel Resident, 1000 Lehigh Station Road, Henrietta, New York 14467." The remaining 2.6 kilograms of methyllone was to be sent to Rita LEVY-PANZICA at 268 Susquehanna Road, Rochester, New York 14618. PANZICA lives at that residence and is the known girlfriend of Kevin WILLARD.

125. According to the emails, the total cost of the methyllone was \$4,800.00, which was to be paid by "Madhu Ashok". Similar to all other transactions, the Target Account was provided with a Western Union MTCN of 419 022 8580. Records subsequently obtained from Western Union indicate that Madhu ASHOK sent \$4,800.00 to [REDACTED] on July 30, 2013 after utilizing the Western Union located at the Tops Market on 1900 Clinton Avenue South, Rochester, New York 14618. Video surveillance footage obtained by your affiant shows Madhu ASHOK completing the Western Union transaction and showing his driver's license to the store clerk as proof of identity.

126. On August 3, 2013 the Target Account provided an shipping tracking number of EE839169450CN for the package being delivered to the Super 8 Motel in Henrietta. The Target Account provided an EMS tracking number of EE839169534CN for the package being delivered to LEVY-PANZICA's residence at 268 Susquehanna Road in Rochester.

127. On August 5, 2013 the Target Account emailed the additional tracking number of EE839169653CN, stating that the 2.6 kilograms destined for 268 Susquehanna Road was actually being

broken up into two packages.

128. Based upon the information observed within the emails, your affiant notified the United States Postal Service to be on alert for the three (3) mail packages entering the United States. On August 7, 2013, Customs and Border Protection Officers stationed at the International Mail Facility at the JFK International Airport intercepted an international mail parcel bearing tracking number EE839169534CN addressed to Rita LEVY-PANZICA, 268 Susquehanna Road, Rochester, New York 14618. A border search examination was conducted on the parcel, resulting in a positive field test for controlled substances. Homeland Security Investigations (HSI) Special Agents stationed at JFK, New York contacted your affiant regarding the findings and delivered the mail package to me in Rochester, New York.

129. On August 8, 2013, I was contacted by USPS Inspector Jeffrey Maul and advised that USPS had encountered the remaining two (2) EMS packages sent from [REDACTED], bearing tracking numbers EE839169653CN and EE839169450CN. Package EE839169653CN was addressed to Rita LEVY PANZICA, 268 Susquehanna Road, Rochester, New York 14618. Package EE839169450CN was addressed to "M. Hess"

and "Jesse M." at the Super 8 Motel Resident, 1000 Lehigh Station Road, Henrietta, New York 14467.

130. On August 8, 2013, pursuant to an extended border search of said parcels, US Postal Inspectors and your affiant opened the parcels to determine the contents. Package EE839169653CN, addressed to Rita LEVY PANZICA, 268 Susquehanna Road, Rochester, New York 14618, was found to contain a pink crystal-like substance. Package EE839169450CN, addressed to the Super 8 Motel Resident, 1000 Lehigh Station Road, Henrietta, New York 14467, was also found to contain a pink crystal-like substance.

131. The contents of all three parcels were subsequently tested by the Drug Enforcement Administration Northeast Regional Laboratory. Parcel EE839169534CN addressed to Rita LEVY-PANZICA, 268 Susquehanna Road, Rochester, New York 14618 was found to contain a net weight of 1,595 grams of methylone hydrochloride. The contents of the parcel bearing tracking number EE839169653CN addressed to Rita LEVY-PANZICA, 268 Susquehanna Road, Rochester, New York 14618 was found to contain a net weight of 998.7 grams of methylone hydrochloride. The contents of the parcel bearing

tracking number EE839169450CN addressed to "M. Hess" and "Jesse M." at the Super 8 Motel Resident, 1000 Lehigh Station Road, Henrietta, New York 14467 was found to contain a net weight of 797.5 grams of methyllone hydrochloride.

132. Controlled deliveries of the parcels were attempted by law enforcement agents on August 9, 2013. That same day, at approximately 9:15 A.M. the Honorable Jonathan W. Feldman signed a search warrant for the residence of 268 Susquehanna Road, Rochester, New York 14618.

133. At approximately 11:30 A.M., the package addressed to "M. Hess" was delivered to the Super 8 Hotel and left with the front desk clerk. At approximately 12:27 P.M., agents observed Michele HESS enter the hotel and approach the counter. HESS appeared to speak only a few words to the hotel attendant, who handed HESS the target package. HESS immediately exited the motel and approached a red colored Mercedes, registered to Joshua BUERMAN, placed the package in the trunk and departed the location.

134. HESS then drove to the address of 83 Washington

Street, Rochester, New York and parked in the driveway of this address. She exited the vehicle where she was approached and detained by agents. Moments later, Joshua BUERMAN was located in the upstairs rear apartment of this location.

135. At approximately 12:52 P.M. an Undercover Postal Inspector from the US Postal Service attempted to deliver the target package bearing tracking number EE839169653CN to 268 Susquehanna Road. At approximately 12:55 P.M. Rita Levy-PANZICA answered the door at 268 Susquehanna Road and signed for the package bearing her name. Based on information received from the UC after the completion of the delivery, Rita did not hesitate in accepting the package or question its origin at the time she signed for it. The UC Postal Inspector departed the scene after the delivery of the target package while your affiant maintained an eye of the target residence. Within two minutes of accepting the target package and bringing it inside her residence, Rita Levy-PANZICA departed the residence with large purse which she placed in the trunk of a gray sedan which was parked in the driveway of 268 Susquehanna Road. She was approached as she stood outside her vehicle.

136. Your affiant asked LEVY if she was Kevin WILLARD's boyfriend and she replied "no." Your affiant asked her if she was Rita LEVY and she replied "yes." The mail parcel was observed inside the vehicle and retrieved. LEVY-PANZICA claimed she was on her way to return it to the Post Office. When asked follow up questions about the package, LEVY-PANZICA asked for an attorney. Further questioning of LEVY-PANZICA stopped at that point.

137. Your affiant later spoke to Rita LEVY PANZICA's father, John Panzica, inside of his residence. Mr. Panzica stated that his daughter and Kevin WILLARD began dating approximately six months ago and that WILLARD had been over his house on many occasions. I asked Mr. Panzica to talk to his daughter once things had calmed down and left him my phone number. Mr. Panzica called me later that night and stated that he tried talking to his daughter, but she told him she doesn't want to get "Kevin" in trouble.

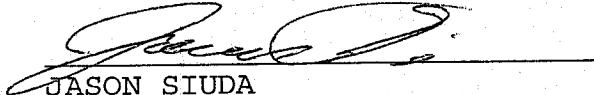

138. Between the time of the controlled deliveries on August 9, 2013 and the conclusion of the Title III interception on August 22, 2013, there were absolutely no further

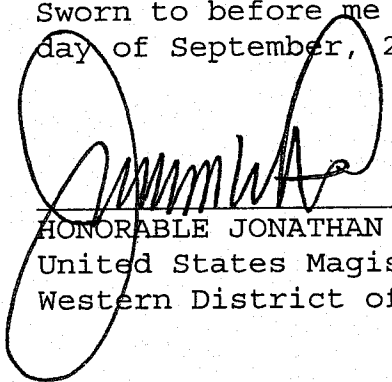

communications between the Target Account and any of the email address previously associated with Joshua BUERMAN, including "jbconsultingservicesinc@gmail.com", "chesswithpeople@countermail.com", "member36331@countermail.com" and "member36331@cmail.nu."

WHEREFORE, I submit there is probable cause to believe that, from in or about June 2012 through August 2013, in the Western District of New York, and elsewhere, the defendants, Joshua BUERMAN, Michele HESS, Kevin WILLARD, Andrew BOSCH, Madhu ASHOK, Lance MINNIELY, Jesse James MCAVANEY, and Rita Levy PANZICA did knowingly, willfully and unlawfully combine, conspire and agree together and with others, to commit the following offenses, to wit, (1) to possess with intent to distribute, and to distribute, a detectable amount of methyldone, a Schedule I controlled substance, and a mixture and substance containing 4-Methyl-n-ethylcathinone, commonly referred to as "4-MEC", an analogue of Methcathinone, a Schedule I controlled substance, if intended for human consumption, all in violation of Title 21, United States Code, Sections 841(a)(1), 841(b)(1)(C) and 846; and, (2) to import into the United States from a place outside thereof, that

is, [REDACTED], a detectable amount of methylene, a Schedule I controlled substance, and a mixture and substance containing 4-Methyl-n-ethylcathinone, commonly referred to as "4-MEC", an analogue of Methcathinone, a Schedule I controlled substance, if intended for human consumption, all in violation of Title 21, United States Code, Sections 952(a), 960(a)(1) and 960(b)(3).
