(2012-11-05 15:58) inigo: so uhh we have a vendor selling cyanide

(2012-11-05 15:58) myself: link please

(2012-11-05 15:58) inigo: getting it now

(2012-11-05 15:58) inigo: <http://silkroadvb5piz3r.onion/index.php/silkroad/item/62806edf01>

(2012-11-05 15:59) myself: was it reported, or did you stumble on it?

(2012-11-05 15:59) inigo: it was reported

(2012-11-05 16:00) inigo: not sure where we stand on this, hes not listing it as a poison, but its only the most well known assasination and suicide poison out there

(2012-11-05 16:00) inigo: lol

(2012-11-05 16:01) inigo: at the same time, fentanyl has been used to assasinate people too, but we allow that to be sold for recreational use

(2012-11-05 16:01) inigo: but this isnt a drug

(2012-11-05 16:01) inigo: its tricky

(2012-11-05 16:03) myself: cyanide has a bad reputation

(2012-11-05 16:03) myself: as you say

(2012-11-05 16:03) myself: the vendor lists a bunch of legit uses

(2012-11-05 16:03) myself: and there are plenty of poisons you can get off the shelf

(2012-11-05 16:03) inigo: very true

mbsobzvkhwx4hmjt.log

(2012-11-05 16:03) myself: some of the drugs we allow are poisons in certain dosages

(2012-11-05 16:04) inigo: so we're going to allow this?

(2012-11-05 16:04) myself: it's bad for image/pr

(2012-11-05 16:05) myself: just brainstorming with ya

(2012-11-05 16:05) inigo: ah ok

(2012-11-05 16:05) inigo: yeah it deff is

(2012-11-05 16:06) inigo: i almost want to order some haha :X

(2012-11-05 16:06) inigo: just to keep on hand

(2012-11-05 16:06) myself: I think we'll allow it

(2012-11-05 16:06) inigo: ok

(2012-11-05 16:07) inigo: i kind of like the idea of allowing all kinds of industrial chemicals, whatever they may be used for

(2012-11-05 16:07) myself: it's a substance

(2012-11-05 16:08) myself: and we want to err on the side of not restricting things

(2012-11-05 16:08) inigo: absolutely

(2012-11-05 16:09) inigo: this is the black market after all :)

(2012-11-05 16:10) myself: it is, and we are bringing order and civility to it.
