- (2012-10-19 10:56) inigo:** another question. do you recommend that i wash my btc from you through bitcoin fog? or are they already mixed sufficiently that I can send them to Mt. Gox to exchange? Also, should I even use Mt. Gox? Or should I be converting them more anonymously? I was thinking maybe one of those prepaid VISA cards that you can load with bitcoin
- (2012-10-19 10:57) myself:** I would avoid mtgox if possible. I wouldn't worry about bitcoin fog unless you are trying to move a large amount.
- (2012-10-19 10:57) inigo:** ok
- (2012-10-19 10:57) myself:** read up on the bitcoin wiki for alternatives
- (2012-10-19 10:58) inigo:** k
- (2012-10-19 10:58) myself:** you could also hit up the exchangers on sr
