- (2012-10-29 14:27) **cimon:** on btctalk, there are folks who when you just started out save you shroom packs. Couple that with educatoin and empoloyment I know - yer one of 12 folks in the world. Easy odds.
- (2012-10-29 14:29) **cimon:** Sorry, don't mean to worry ya - I'm making a point that I have 10 times more on D A - if needed, I can lay my finger on him in weeks, easy. He leaked more info like a seive than you did. Also, keep in mind I've shipped shit to his prev addy. Not hard to track from there.
- (2012-10-29 14:29) **cimon:** and my point is I want to find him, and have a chat - if it's ok with you.
- (2012-10-29 14:29) **myself:** go ahead
- (2012-10-29 14:29) **cimon:** Just make sure he's on side, is all.
- (2012-10-29 14:29) **myself:** I wouldn't think the info you have would narrow me down to 12
- (2012-10-29 14:29) **cimon:** nothing bad will happen - it's just talk
- (2012-10-29 14:30) **cimon:** (04:29:53) Dipper: I wouldn't think the info you have would narrow me down to 12  
Bet? ;)
- (2012-10-29 14:30) **myself:** just don't spook him too bad. I wouldn't want him freaking out and attacking you or something
- (2012-10-29 14:30) **myself:** where are you getting the number 12? do you have a list?
- (2012-10-29 14:31) **cimon:** naw - if anything I'm gonna see if I can help him. I'm sure he's stressted, scared, and just a little bit fucked up in general.
- (2012-10-29 14:31) **cimon:** 12's an estimate - could be as high - but no higher - than 10, and no less than 8

(2012-10-29 14:32) myself: I call bs

(2012-10-29 14:32) cimon: Well, unless you lied in the early days, yer right

(2012-10-29 14:33) myself: not sure what the bet would be or how to settle it, but I'd take it

(2012-10-29 14:33) cimon: but if you didn't - and I don't think DA did - then my good memeory serves me well

(2012-10-29 14:34) myself: from what I remember, you know my educational background (sort of), you can infer my gender, age, race, etc. and you know where I was a year and a half ago roughly when I started the site

(2012-10-29 14:34) myself: does that really narrow me down to 12 people?

(2012-10-29 14:34) myself: you could estimate my travels a bit based on timezone

(2012-10-29 14:35) cimon: yeah - I'm not looking for you - but you've left enough hints - where you went to school - when you started to work and left - info from folks on btctalk who posted images of postmarks from shrooms you sent - yeah - I could narrow it down quick.

(2012-10-29 14:35) myself: where i went to school

(2012-10-29 14:35) myself: ?

(2012-10-29 14:35) myself: I don't remember revealing anything like that

(2012-10-29 14:36) cimon: dude, I'm not trying to worry you - I'm making the point that DA slipped way more shit than you.

(2012-10-29 14:37) myself: you are worrying me! won't you ease my mind and tell me what you think you know?

(2012-10-29 14:37) cimon: I mean, yer fine, how many experimental physicists quit to sell shrooms outta ndl anyways, eh.

(2012-10-29 14:38) myself: shit, you know about the national dodgeball league!

**(2012-10-29 14:38) myself:** my cover is blown

**(2012-10-29 14:38) cimon:** goddammit! I was making a point, not trying to worry you. Do I think I could find you quickly - absolutley. Would I - what the fuck would I want to do that for - then I have info folks would kill me for. I'd rather not know - the point is it's easy to let info out, and DA did, and I 'll spend \$ to follow it up. Shit, if I really wanted to just see you, I'd just ask.

**(2012-10-29 14:40) myself:** it's ok man, just never thought you were capable of that

**(2012-10-29 14:40) myself:** what's ndl?

**(2012-10-29 14:40) cimon:** You know - I post up, and give you shitloads of info that could if you tried just a bit (fuck, Plural of Mongoose alone should do it!) that you could determine exactly who I am. I did that to make you feel comfortable.

**(2012-10-29 14:41) myself:** i know

**(2012-10-29 14:41) cimon:** If you can't find me in 10 days, you've not read my shit.

**(2012-10-29 14:41) myself:** it's not like I don't trust you dude

**(2012-10-29 14:41) cimon:** That's my way of trying to make you comfy - there ain't much more I can do.

**(2012-10-29 14:42) cimon:** dude, you so don't trust me - I know you want to, but it's not there yet. I'm doing my best to make it easy for you.

**(2012-10-29 14:42) myself:** i guess there are different levels

**(2012-10-29 14:42) cimon:** Fuck, I scare you. Shit, I scare me. We gotta work together

**(2012-10-29 14:42) myself:** but I beleive you when you say you wouldn't look for me

**(2012-10-29 14:42) myself:** but there is a difference between willing and able

(2012-10-29 14:42) myself: thats all

(2012-10-29 14:43) cimon: The reason I don't look for you is that leaves a trail - but I'm pretty confident if I did, I'd find you. And that's just a fact.

(2012-10-29 14:43) myself: didn't think you were able before, but I guess you are

(2012-10-29 14:43) cimon: But, I'd rather some day you came to see me.

(2012-10-29 14:43) myself: I will

(2012-10-29 14:43) myself: or I'll invite you somewhere

(2012-10-29 14:44) cimon: shit, now I'm worried you think I'm being, I dunno...

(2012-10-29 14:44) myself: we'll get to embrace, and shoot the shit, and brainstorm

(2012-10-29 14:44) cimon: Fuck, do I need to knock on yer door and NOT shoot ya to make you trust me? Tell me.

(2012-10-29 14:45) myself: lol

(2012-10-29 14:45) cimon: heh

(2012-10-29 14:46) myself: yer fine... just me processing info. I guess I revealed too much.

(2012-10-29 14:46) myself: selling was my first mistake

(2012-10-29 14:46) cimon: Now, back on track - do you have a prob with me having one of my folks tap on DA's door, and having a talk

(2012-10-29 14:46) myself: nope, go for it

(2012-10-29 14:47) cimon: yeah - there are records on reddit, and bitcointalk, where folks have scans of your shipments - that was the key

(2012-10-29 14:47) cimon: but great shrooms, apparently!

(2012-10-29 14:47) myself: they were fucking awesome

(2012-10-29 14:47) cimon: but postmarks narrow it down

(2012-10-29 14:47) cimon: with everything else, yeah, I could find ya\

(2012-10-29 14:48) cimon: but that said, no one else knows, no one else ever will, and I won't do that.

(2012-10-29 14:48) myself: thank you

(2012-10-29 14:49) cimon: and further to that, the DPR thing is great, and we need to make at least one public set of statements that indicates that the old admin is long gone, and dpr is now in charge. Keep in mind the movie, and how dpr can change from one time to the next. I've got yer back.

(2012-10-29 14:49) myself: yea, I was thinking the same thing

(2012-10-29 14:49) myself: have a back story for him

(2012-10-29 14:50) cimon: I suggested DPR when I first realized I could track you. I don't give a shit who you are, and it's to my and everyone's advantage no one else can.

(2012-10-29 14:50) cimon: DPR by it's very nature indicates a rotating command. We'll play that.
